

Zoom Updates: Version 5.4.6 & 5.4.7

Feature	Older versions of Zoom	Version 5.4.6 & Version 5.4.7
<p>Breakout Rooms</p>	<ul style="list-style-type: none"> - Only the host can start/manage breakout rooms. - Host cannot move participants into the main session unless they end ALL breakout rooms, which returns ALL participants to the main session. 	<p><i>(Version 5.4.6 or later)</i></p> <ul style="list-style-type: none"> - Both hosts and co-hosts can start/manage breakout rooms. <ul style="list-style-type: none"> o If the <u>host</u> is not on version 5.4.6 or later, ALL co-hosts will not be able to start/manage breakout rooms. o If a <u>co-host</u> is not on version 5.4.6 or later, ONLY that co-host will not be able to start/manage breakout rooms. - Host/co-host have the ability to move individual participants back into main session while keeping breakout rooms open. - The breakout rooms option is available on the bottom control panel for co-hosts.
<p>Non-verbal Feedback / Reactions</p>	<ul style="list-style-type: none"> - Non-verbal feedback options are located in Participants' tab. - Only participants can use the "raise hand" feature. 	<p><i>(Version 5.4.7 or later)</i></p> <ul style="list-style-type: none"> - Non-verbal feedback options have moved from the "Participants" panel to the "Reactions" control panel.  <ul style="list-style-type: none"> - All reactions will be shown in the corner of the participants' video. - Host/co-hosts can also use the "raise hand" feature now. - Hosts can see the participants' reactions and the total number of each reaction. However, each reaction will only last for 10 seconds, then disappears (which affects the counter).

Note: Some features may require the participants (e.g. students) to also be on the newer version of Zoom in order for it to work.
